

Lightspeed Analytics™
catch on edition

~67% of all district purchased licenses go unused.

Gain visibility into students' online learning

Bringing together curriculum, technology, and administrative leaders for data-driven collaborations

Keep track of the software you've purchased and how it's being used. Lightspeed Analytics™ is built to give districts robust data on the utilization of all tools they implement so educators can take a strategic approach to their technology stack and streamline reporting.

- Enable collaborative curriculum and technology decision-making across a district.
- Easily detect all tools in use while tracking student-level engagement patterns through a customizable dashboard, granular data, and visualizations.
- Manage budgets, track expenditures by budget and funding source, and identify ROI by tool.

CUSTOMIZABLE DATA SETS

Widgets and shared dashboards can be created to provide customizable views of most critical information.

IDENTIFY STUDENT DATA PRIVACY RISKS

Easily identify new trending apps to efficiently mitigate data privacy risks for apps that do not comply.

THIRD PARTY BADGING AND SECURITY REVIEWS

Gain advanced insight into application security and privacy measures.

OPTIMIZE STUDENT ENGAGEMENT

With the industry's most accurate and granular student engagement data, see which paid and free tools are being used, when, by whom, and with what frequency—by district, school, class, or student. Identify underutilized tools and areas for professional development improvement.

EASILY SHARE REPORTS ON CRITICAL DATA

Track and provide accurate federal spending reports for critical Title 1 and ESSER funding. With transparent and streamlined data processes, admins can provide enhanced student- and class-level data to principals and other stakeholders in order to facilitate budgetary collaborations across departments.

Lightspeed Solution Suite

With Lightspeed Systems®, everything your school or district needs to ensure the safest, most effective online learning experience possible is available in an integrated platform.

What sets Lightspeed Analytics™ apart?

Usage Tracking: The industry's most comprehensive data for engagement analysis—including for those apps not accessed through single sign-on tools.

Granular Reporting: Drill down details on each individual app, software, or online resource by campus, grade level, course, section, and end user.

Cost and ROI Reports: Analysis of cost and ROI of all paid software, apps, and resources.

Comprehensive Dashboard: Combines all usage whether it's on network or at home, on an app or a browser, into a single view.

License Usage Reports: Reporting on used/unused licenses for software, app, and online resources.

Trend Detection: Discover all apps in use in your district.

Data Privacy and Security Analysis: Analysis of app, software, and resource compliance with data privacy and security policies via third party reviews.
